Go green in an economical way with...

SOPRASOLAR

Solar Integrated Roofing System

Introducing the next generation of environmentally friendly construction!

SOPRASOLAR combines SOPREMA's time-tested, multi-ply SBS roofing membrane with UNI-SOLAR® thin-film solar laminates to create a state-of-the-art rooftop power plant. We've got you covered: Take advantage of SOPREMA's 20 year single source warranty to ensure years of clean, economical and environmentally friendly energy production.

Return on Investment (ROI)
in as little as 5 years

There are many economic reasons to incorporate SOPRASOLAR into your next commercial building project. Governmental incentives & rebates can reduce your capital expenditure.

Thin-Film vs. Rigid Panel Photovoltaic Cells

Thin-Film PV Cells

Flexible and lightweight
Fully adhered to rooftop with no penetrations
High performance even on cloudy days
No glass, less susceptible to damage
Very little maintenance required

VS.

Rigid Panel PV Cells

Rigid and heavy
Rack system installation means penetrations
Cloudy days equal less performance
Glass construction, easily damaged
Requires more maintenance and upkeep

Going Green has never been so valuable...

- Demonstrates a commitment to sustainable development and environmental stewardship
- Save money by reducing costly utility bills
- Creates positive public image through "going green"
- The PV system will generate profits long after the ROI is reached
- Governmental incentives & rebates help to reduce initial investment in the PV system
- Reduces our dependence on foreign oil

TAKE ADVANTAGE
OF GOVERNMENT
INCENTIVES AND
REBATES TO INCREASE
YOUR RETURN ON
INVESTMENT.

Is the right choice for your next building
project: New construction or re-roof

Why SOPREMA chose the Uni-Solar brand

United Solar Ovonix is the leader in building integrated and commercial rooftop photovoltaics, one of the fastest growing segments of the solar power industry:

- Requires no roof penetrations
- Lightweight, durable and flexible
- Ideal for Building-Integrated (BIPV)
- Easy to install
- Low maintenance, no re-coating necessary
- Commitment to the highest quality panels

UNI-SOLAR
United Solar Ovonix

UNITED SOLAR OVONIX is a wholly owned
subsidiary of Energy Conversion Devices, Inc. **ENER**
