DESCRIPTION & APPLICATION

DESCRIPTION:

Soprastar Seam & Repair Tape is Soprastar film surfacing laminated to self-adhering asphalt with a release film on the bottom side of the tape.

PRODUCT USES:

Soprastar Seam & Repair Tape may be used to cover excessive bleedout of asphalt at the side and end laps. Soprastar Seam & Repair Tape may also be used to flash in repairs made in the field of the roof.

COLOR:

Soprastar Seam & Repair Tape is available in white only.

PACKAGING:

Soprastar Seam & Repair Tape is available in three (3") inch (76 mm) and six (6") inch (152 mm) widths by 49 feet (15 m) rolls. Additional width available by custom order.

STORAGE:

Always store in a clean and dry location. Product should not be dropped and seals should not be broken prior to use.

APPLICATION:

Soprastar Seam & Repair Tape is applied directly to the clean, dry Soprastar surface, centered over the blemished area.

COVERAGE RATES:

The forty-nine (49) linear feet (15 m).
