

ALSAN / ALSAN RS TOOLS & ACCESSORIES

SOPREMA ALSAN (RS) MIXER/AGITATOR

Description:

Alsan (RS) Mixer/Agitator is a mixer specially designed for mixing resins, leveling compounds and aggregate mixtures.

Tool Component:

Steel spiral agitator with 1/4" (6.4 mm) drive for use with hand-held drills and mixers.

Use:

As a mixer for all Alsan / Alsan RS resin materials and components. Alsan (RS) spiral agitator prevents air-entrapment and mixes heavy liquids evenly.

Tool Cleaning:

Immediately after use, clean with Alsan (RS) Cleaner or acetone. Store dry with other tools, and keep from rusting.

Ordering Information:

Mixer/Agitator
6" (15 cm) agitator

SOPREMA ALSAN (RS) ROLLER HANDLES

Description:

Alsan (RS) roller handles are specially designed for Alsan closed-end ball-bearing mount resin rollers.

Tool Component:

Plastic handle with metal shaft. Roller handle can be mounted on a broom stick or extension handle.

Use:

Used to apply Alsan / Alsan RS resin materials and components

Tool Cleaning:

Immediately after use, clean with Alsan (RS) Cleaner or acetone. Store dry with other tools, and keep from rusting.
